Assembling your Paper Doll Saints

There is the *easy way* and then the ***even easier*** way to do these:

The easy way:

Cut out around each saint, following the dotted lines (or close to them) until you get to the edge of the saint. (Do not cut the solid line at the top of the saint's head.)

The even easier way:

If you don't want to hassle with cutting around the saints, I added lines, and the saints are just as cute if you cut out big rectangles around them. (I know kids sometimes want to do the cutting themselves, and straight lines are easier.)

Fold your saint at the solid black line on top of their head.

Fold the tabs at the bottom inward. From the side your saint looks like a triangle.

You can either play with them as is, or secure the tabs together using a glue dot, glue stick or tape.
